

MOAZ MOHAMMAD

.NET Backend Developer

devmoazmohammad@gmail.com | +20 105 042 9118 | Cairo, Egypt | LinkedIn | GitHub | Portfolio

SUMMARY

Junior .NET Backend Developer with hands-on experience in ASP.NET Core, EF Core, SQL Server, and RESTful API development. Seeking to contribute technical skills and grow within a professional development team.

EDUCATION

Bachelor of Computer Science	Islamic University of Gaza – Palestine	Aug 2022 – Jun 2026
------------------------------	--	---------------------

PROJECTS

IUG Monitor

Mar 2026 - Present

[Live Demo](#)

- Developed as a Graduation Project in collaboration with a cross-functional team.
- Worked as Backend Developer responsible for APIs and core backend architecture.
- Integrated Groq API for fast AI-powered academic document analysis and structured feedback generation.
- Implemented PDF/DOCX upload, text extraction, intelligent chunking pipeline, and AI analysis workflow.
- Optimized AI response time from 12s to 4s using async processing and concurrency control.
- Successfully Used by 20+ students and under continuous development.

Clinic Management

Jan 2026 - Mar 2026

- Developed a scalable backend system for managing clinic operations and daily workflows.
- Implemented appointment scheduling, session management, and complete payment processes.
- Integrated Paymob payments with secure webhook handling and Twilio SMS reminders.
- Built using ASP.NET Core Web API, EF Core, SQL Server, Clean Architecture, and CQRS.

MechanicShop

Nov 2025 - Jan 2026

- Built a backend system for workshop operations management and service workflows.
- Implemented work orders, task tracking, employee management, and billing modules.
- Added real-time notifications and background services for automated operations.
- Applied Clean Architecture, CQRS, Unit Testing, and Integration Testing using ASP.NET Core Web API.

Shipping System

Aug 2025 - Sep 2025

- Developed a role-based system for shipment tracking and subscription management.
- Implemented administrative workflows and secure PayPal payment integration.
- Applied Repository, Unit of Work, Strategy, and Factory design patterns.
- Built with .NET 8, ASP.NET Core MVC/Web API, EF Core, SQL Server, and N-Tier Architecture.

E-Commerce Platform

Jun 2025 - Jul 2025

- Built a full e-commerce platform with product browsing, cart, and order management.
- Developed an admin dashboard for sales analytics and order tracking.
- Implemented scalable data access using Repository Pattern and N-Tier Architecture.
- Built with .NET 8, ASP.NET Core MVC, EF Core, SQL Server, HTML, CSS, and JavaScript.

SKILLS

- **Programming Languages:** C#
- **Frameworks & Technologies:** .NET Framework, .NET Core, ASP.NET Core (Web API - MVC), EF Core, ADO.NET
- **Web Development:** Fundamentals of HTML5, CSS3, JavaScript, Bootstrap Used for building views in MVC projects
- **Database Management:** SQL, MS SQL Server, T-SQL, Database Design
- **Version Control & APIs:** Git, GitHub, RESTful APIs, Postman, Swagger
- **Data Handling & Practices:** LINQ, Data Structures, Algorithms, SOLID Principles, Design Patterns
- **Soft Skills:** Problem Solving, Communication, Teamwork, Attention to Detail, Time Management

COURSES & ACHIEVEMENTS

- | | |
|--|---------------------|
| Completed 23 programming courses on Programming Advices , covering Problem Solving, Algorithms, Data Structures, C++, C#, OOP, .NET Framework, and Database Management. | Jan 2024 - Apr 2025 |
| Completed a Training Course in ASP.NET Core On IT-Legend . | Jul 2025 - Sep 2025 |
| Practiced coding challenges on HackerRank , enhancing problem-solving and programming skills. | |
| Completed a course on mastering Asp.Net.Core concepts to build production-ready APIs | Oct 2025 - Dec 2025 |

LANGUAGES

- Arabic (Native)
- English (Intermediate)
