

MOAZ MOHAMMAD

.NET Backend Developer

devmoazmohammad@gmail.com | +20 105 042 9118 | Cairo, Egypt | LinkedIn | GitHub | Portfolio

SUMMARY

Junior .NET Backend Developer experienced in ASP.NET Core, EF Core, and SQL Server, with a focus on building RESTful APIs and scalable backend solutions. Eager to grow and contribute to impactful projects.

EDUCATION

Bachelor of Computer Science	Islamic University of Gaza – Palestine	Aug 2022 – Jun 2026
------------------------------	--	---------------------

PROJECTS

IUG Monitor

Mar 2026 - Present

[Live Demo](#)

- Graduation project developed in collaboration with a cross-functional team, where I served as Team Lead and Backend Developer for an AI-powered research review platform.
- Integrated OpenAI APIs to generate structured feedback, scores, strengths, weaknesses, and improvement suggestions for academic documents.
- Optimized response time from 12s to 4s using asynchronous processing and concurrency control adopted by 20+ students.

Clinic Management

Jan 2026 - Mar 2026

- Developed a scalable clinic management backend with appointment, session, and payment workflows.
- Integrated Paymob payments and Twilio SMS reminders using secure webhooks and background services.
- Built with ASP.NET Core Web API, EF Core, and SQL Server using Clean Architecture & CQRS.

MechanicShop

Nov 2025 - Jan 2026

- Developed a backend system for workshop management with work orders, task tracking and billing.
- Implemented real-time notifications, background services, and comprehensive unit/integration testing.
- Built with ASP.NET Core Web API, EF Core, and SQL Server using Clean Architecture & CQRS.

Shipping System

Aug 2025 - Sep 2025

- Developed a role-based shipment and subscription management system with tracking and admin workflows.
- Integrated PayPal for secure online payments and streamlined subscription operations.
- Built with .NET 8, ASP.NET Core MVC/Web API, EF Core, and SQL Server using N-Tier Architecture and design patterns.

E-Commerce-MVC

Jun 2025 - Jul 2025

- Built a full e-commerce web application with product browsing, shopping cart, and order management.
- Developed an admin dashboard for sales statistics, order tracking, and store management.
- Built with .NET 8, ASP.NET Core MVC, EF Core, SQL Server, and front-end technologies using N-Tier Architecture.

SKILLS

- | | |
|--------------------------------|--|
| • Programming Languages: | C#, C++ |
| • Frameworks and Technologies: | .NET Framework, .NET Core, ASP.NET Core (Web API MVC), EF-Core, ADO.NET. |
| • Web Development: | Fundamentals(HTML5, CSS3, JavaScript, Bootstrap) Used for building views in MVC projects |
| • Database Management: | SQL, MS SQL Server, T-SQL, Database Design. |
| • Version Control & APIs: | Git, GitHub, RESTful APIs, Postman, Swagger. |
| • Data Handling & Practices: | LINQ, Data Structures, Algorithms, SOLID Principles, Design Patterns. |
| • Soft Skills: | Problem Solving, Communication, Team Work, Attention to Detail, Time Management. |

COURSES & ACHIEVEMENTS

- | | |
|--|---------------------|
| • Completed 23 programming courses on Programming Advices , covering Problem Solving, Algorithms, Data Structures, C++, C#, OOP, .NET Framework, and Database Management. | Jan 2024 - Apr 2025 |
| • Completed a Training Course in ASP.NET Core On IT-Legend . | Jul 2025 - Sep 2025 |
| • Practiced coding challenges on HackerRank , enhancing problem-solving and programming skills. | |
| • Completed Course For Mastering Asp.net.core Concepts To Production Ready Apis | Oct 2025 - Dec 2025 |

LANGUAGES

- Arabic (Native)
- English (Intermediate)
